Container loading & ordering

How an order is put together

Pick your sizes

Choose sizes from the range tables. Each size shows how many pieces fill a 40HQ container on their own.

Send the list

Send your size list and target quantities on WhatsApp (+86 135 6307 0869) or by email (zyouzhi04@gmail.com). Mixed containers — several sizes in one 40HQ — are the standard way to order; the exact mix and the minimum per size are confirmed at inquiry.

Written quotation first

You receive a written quotation with the final price per size, the loading plan and the total. Production and loading follow your confirmation of the quotation.

No packing vs with packing

“No packing” tyres are loaded bare in the container. “With packing” tyres are individually packed before loading, which protects the sidewall and finish during the voyage. Both prices are listed for every size.

Payment & lead time

Payment terms and lead time are confirmed at inquiry and stated in the written quotation before you commit to anything.

Prices

Reference FOB prices — final price confirmed at inquiry. Prices are FOB Qingdao per tyre in USD.
